

Industrial Material Handling Carts

Material Handling Carts function as easy-to-use tip trucks for manual waste handling systems. When combined with Self-Contained Industrial Cart Dumpers, Material Handling Carts become an efficient, semi-automated waste handling system. Carts are available in half-yard (100 gal.) through two-yard (400 gal.) capacities in a selection of colors. Optional lids, tow packages and pneumatic tires available on all models. Steel frames are welded and gusseted.

Medium-Duty Cart Features:

- 750 lb. load capacity
- Semi-pneumatic wheels
- Heavy-duty casters

Heavy-Duty Cart Features:

- 1000 lb. load capacity
- Mold-on rubber tires
- Cast-iron hub wheels

Super-Heavy Duty Cart Features:

- Mold-on rubber tires
- Cast-iron hub wheels

MegaKart™

Injection-molded MegaKart, available in both 96 and 65 gallon models, meets the requirements of a wide range of collection applications. Factory installed parts eliminate up to 50 percent of the usual cost of on-site preparation. MegaKart's corners, lift points, hinges, axle fixtures and handles are all reinforced for maximum strength without adding excessive additional weight.

MegaKart™ Benefits

- Expanded footprint for stability
- Injection-molded HDPE for rugged durability
- Optional slotted or recycle caddy lids, hasps, locks available

Curbsider®

Designed for residential/municipal curbside recycling programs, the Curbsider is rugged enough for all environments. Excellent for programs that focus on glass, paper and plastic. Available in up to 100% recycled material to meet a wide range of recycling program specifications.
