3 Easy Steps

1. Assembly

2. Delivery

3. Tracking

Keep your assets on track.

Toter®

Toter Trax Technology

ToterTrax Features:

- Real-time asset management
- Real-time visibility of delivery and current status
- Real-time visibility of geo coordinates and time stamp data
- Unique RFID tag number with matching serial number for superior accuracy
- User-friendly web portal

3 Easy Steps

1. Assembly

Manufactured with an embedded RFID tag in the handle and a matching RFID # and serial # for accurate tracking.

2. Delivery

Time Stamp: April 18, 2016 3:50 pm
Address: 2413 Toter Blvd
GPS Coordinates: 35º 9'16.9" N 80º49'44.7"W

3. Tracking

As crews deliver the carts, each cart's RFID tag is scanned, instantly sending data to our user-friendly web portal.

Toter's industry-leading cart delivery and tracking solution, ToterTrax, gives you the power to track your carts in real-time through its state-of-the-art RFID tracking technology. Designed specifically for waste and recycling assembly and delivery projects, ToterTrax provides you with control of your assets from a simple-to-use web portal. Cart delivery is verified through our GPS and time-stamping system and instantly sends data when the route is complete.

Toter Trax

1. Assembly

During the manufacturing process, Toter carts are embedded with an RFID tag in the handle. This tag is associated with a unique RFID number and matching serial number for accurate tracking. This allows better control of your assets through a unique coding system, which captures the RFID tag # and the serial # at the same time, compared to competitors which have multiple data points to track.

2. Delivery

As crews deliver the carts, each cart's RFID tag is scanned and data is instantly sent to our web portal. The data is validated at multiple points to ensure accuracy. Data is then sent back to crews delivering the carts via the ToterTrax application, and to the municipality or hauler via the portal. The app also features an offline mode to ensure accuracy by forcing a portal validation as soon as the user is back in Wi-Fi or cell range.

3. Tracking

ToterTrax provides real-time, 24/7 visibility of delivery status right from the comfort of your office through our user-friendly web portal.
